# ISO9001

GIGAVAC high voltage relays are manufactured to GIGAVAC's exacting standards no matter where they are built. GIGAVAC relays manufactured outside the United States are manufactured in ISO9001 certified facilities and conform to world class manufacturing standards.

GIGAVAC's Far East partner is located in a totally new facility in China built in 2002. They are the largest supplier of high voltage relays in China and many of their key personnel were trained by Jennings, formerly one of the leading suppliers of high voltage relays.

Engineering and production facilities in Europe provide years of experience in the manufacture of high voltage and RF reed relays. Also ISO9001 certified, this part of the GIGAVAC team has the know how to provide high volume, high performance products.
