## GIGAVAC ANNOUNCES THE P105 MiniTactor™: THE FIRST IN A NEW LINE OF COST-EFFECTIVE POWER CONTACTORS

Santa Barbara, California, USA – GIGAVAC announces the first product in a new line of patent pending switching devices: the P105 MiniTactor™. It is small, lightweight and cost effective. Designed and manufactured in the USA, the hermetically sealed GIGAVAC P105 joins GIGAVAC's line-up of other sealed switching products including High Voltage Relays and EPIC® sealed contactors.

At less than four ounces (100 grams), the GIGAVAC P105 can easily be installed in any orientation on a panel in a matter of seconds. A sealed chamber for both contacts and coil assures clean switching in any environment. Safe make and break power switching can be achieved at any voltage up to 1500Vdc. With bi-directional switching capability and current carry to 50A, this first-ever MiniTactor™ is the perfect choice for pre-charge, charge and solar applications. Complete specifications are available online at <http://www.gigavac.com/pdf/P105.pdf>

According to Markus Beck, GIGAVAC's Vice-President of Sales & Power Products, "The solar and Electric Vehicle (EV) markets have increasing requirements for a cost-effective, sealed high voltage contactor. The P105 provides the perfect solution for sealed switching applications at a price that allows our customers to be competitive in their markets. Plus, our P105 has performance specifications that you would expect in far more expensive contactors."

The P105 sells at \$40 for one piece, \$32 each for 50 pieces. There are discounts at various quantities. GIGAVAC accepts all major credit cards and North American customers can purchase from [GIGAVAC Direct](#). [Representatives throughout the world](#) can deliver the products in the user's country and currency at the lowest possible cost. For complete information and ordering, call +1-805-684-8401 or visit [www.GIGAVAC.com](http://www.GIGAVAC.com)

**About GIGAVAC:** Based in Santa Barbara, California, GIGAVAC is Today's Expert in High Voltage Relays & Sealed Contactors. Founded by leading industry professionals, GIGAVAC designs, manufactures and sells fully compliant RoHS high voltage relays, contactors and other Power Products to manufacturers of commercial and military vehicles as well as boats, light rail, mining, factory automation power systems, battery charging and management systems, fuel cells, solar and wind power systems, test equipment, HV power supplies, wafer fabrication, RF communications equipment, MRI/medical equipment and others in need of relay or contactor solution.
